

NATAL ASTROLOGY COURSE by Olga Vasilchuk

This course is intended for those who want to not only acquire theoretical astrological knowledge, but also to master the practical side of this ancient esoteric science, and thus learn how to manage their lives.

Would you like to learn how to manage your life? I'm not talking about abstract advice, positive affirmations, or super universal techniques for everyone. Do you want to learn to understand the cause of events? For example, why people cannot build their personal lives or why financial difficulties, failures, illnesses happen to us? And most importantly, how to deal with those situations right now.

Each of us has a unique design of destiny because our lives are subject to personal laws. So, the first step begins with learning the individual laws of your life. This can be done in two ways. The first is a path of trials and errors which often takes a long time and it is sometimes too late to apply that accumulated knowledge to new experiences. The second way is through applying astrology.
